

North Dorset Turbos Disability Policy

Version 1, October 2010

Disability Policy

North Dorset Turbos Swimming Club is committed to providing opportunities for all swimmers and endeavours to give everyone the opportunity to be active and fulfilled members, whether or not they have a disability.

North Dorset Turbos Swimming Club works closely with pool management to help ensure that suitable facilities are available for disabled swimmers. The Club has a policy of integrating swimmers with disabilities into the existing Club structure wherever possible. Where we cannot provide a suitable environment, and this cannot be easily resolved, North Dorset Turbos Swimming Club will work with local organisations to find more appropriate facilities.

These include Clubs that operate solely, or run separate sessions, for swimmers with disabilities. North Dorset Turbos Swimming Club encourages its poolside staff to attend recognised courses such as Coaching Disabled Performers to help them gain the appropriate skills to understand the needs of prospective members.
