

Sevenoaks Swimming Club AGM November 2025

Head Coach Report

Last 12 months was a year with many great results and achievements.

Junior league team is consistently finishing top three at Kent junior league.

Arenas league results are lower than last year due to lack of open swimmers (17 and over) and unfortunately not having full team in any of three rounds in Premier division or Division 1.

Kent county championship was as always, great success and team placing top three clubs in strongest county in U.K.

Regional championship

With over 20 medals and over 30 finals, club was placed top 10 on points and medals.

Winter national championships was big improvement from previous year as we more than doubled number of swimmers qualified and managed to make finals and win medals. This competition is only open age group and our team being so young, makes results even better.

At summer nationals everyone performed great and we made massive progress from last year where five of swimmers progressed from English to British championship, making number of finals and medals.

Progress was also made in number of our swimmers being selected for county, regional, Swim England development programs and British performance program.

Club was also represented internationally on England and Great Britain teams.

Membership is growing and we are constantly looking for new teachers and coaches to be able to continue growth .

I would like to say big thank you to following people:

Parents for bringing swimmers to training and competitions and support to the team

Officials for giving up their time so competitions can be held

Committee members for all of unseen work they do and continues support enabling club to run smoothly

All teachers and coaches for all the hard work and making swimmers as good as they are

And last but not least, swimmers for all their success and for making me proud of being part of their journey.

Sacha Djerfi
